

EFFECTIVENESS OF TEACHING METHODS IN THE DEVELOPMENT OF MULTIPLE INTELLIGENCES OF STANDARD VIII PUPILS

Name of the student : JUGUNU. M  
Name of the supervising Teacher : Dr. C. M. BINDHU  
Year of study : 2004

**OBJECTIVES**

To study the effectiveness of teaching methods in the development of multiple intelligences

**METHODOLOGY**

**Method Used** : Experimental study  
**Sample** : VIII std. students  
**Tool** : Lesson transcript for Co.operative learning method, Multiple Intelligence Inventory, Lesson plan for existing method of teaching.

**Statistical Technique:** Test of significance between means, ANCOVA, Scheffe's test of post hoc comparison

**RESULT**

The result of the present study doesn't yield any significant difference between the two teaching methods. i.e. there is no advantage of co.operative method over existing method of teaching in the development of multiple intelligences.

**KEY TERMS:** Effectiveness, Teaching method, multiple Intelligence, Standard VIII pupils
