THE UTILIZATION OF INFORMATION TECHNOLOGY BY TEACHER EDUCATORS IN COLLEGES AFFILIATED TO UNIVERSITY OF CALICUT

Name of student : NAZHATH. S. M

Name of supervising Teacher : Dr. MUMTHAS. N. S

Year of study : 2006

OBJECTIVES

➢ To find out the extent of utilization of computer, internet and audio-visual aids by teacher educators

➢ To find out the difficulties faced by teacher educators in the utilization of computer technology.

METHODOLOGY

Method used : Survey method

Sample : 200 teacher educators drawn from 30 teacher training institutions

Tool : Questionnaire on Utilization of IT

Statistical Techniques : Estimation of percentages

RESULT

Majority of teacher educators opined that IT is essential in the modern world, and they have computer facility in their respective institutions. Most of the male teacher educators are using computer and internet facility than that of females. Majority of teacher educators are using audio-visual aids.

KEY TERMS: Information Technology, Teacher Educators
