

AWARENESS AND ATTITUDE OF PARENTS REGARDING CONTINUOUS
AND COMPREHENSIVE EVALUATION PRACTICED IN SECONDARY
SCHOOLS

Name of student : SWAPNA.K. T.
Name of supervising Teacher : Dr. S. NIRMALA DEVI
Year of study : 2006

OBJECTIVES

- To find out the Parental Awareness regarding CCE
- To find out the Attitude of Parents towards CCE

METHODOLOGY

Method used : Survey method

Sample : 550 parents of students studying in 16 schools in Malappuram district.

Tool : Questionnaire on Parental Awareness about CCE, Scale of Parental Attitude towards CCE

Statistical Techniques : t-test

RESULT

The analysis of the study reveals that the Parents of students in secondary schools of Malappuram District have high Awareness and Attitude regarding CCE. Even though, the difference is insignificant the level of awareness of educated parents is slightly higher than that of Uneducated Parents, but Attitude of educated Parents is slightly lower than that of uneducated parents.

KEY TERMS: Parental Awareness about CCE, Parental Attitude towards CCE
