

## JOB SATISFACTION OF PRE SCHOOL TEACHERS OF KERALA

Name of student : JASEENA M. J  
Name of supervising Teacher : Dr. MOHAMEDUNNI ALIAS MUSTHAFA  
Year of study : 2007

### **OBJECTIVES**

- To find out the job satisfaction of pre-school teachers.
- To find out if there exists any significant relationship between Job Satisfaction on Educational qualification and Teaching experience of preschool teachers.

### **METHODOLOGY**

**Method used** : Survey method  
**Sample** : 400 teachers from pre-schools of Kerala state.  
**Tool** : Scale of Job satisfaction of preschool teachers  
**Statistical Techniques** : t-test, Estimation of percentage

### **RESULT**

It is found that the preschool teachers among total sample and subsample were not cent percent satisfied in their job, but moderately satisfied. Teaching experience has great role in moulding the Job Satisfaction of preschool teachers. Teachers with high experience possess more satisfaction in their job than the counter parts with low experience. Trained teachers are more satisfied than compared to untrained teachers.

**KEY TERMS:** Job satisfaction, Preschool teachers
