

ASSESSMENT OF INSTRUCTIONAL AND INFRASTRUCTURAL FACILITIES OF
IT @ SCHOOL PROJECT IN KOZHIKODE REVENUE DISTRICT

Name of the Student : BABITHA P.
Name of Supervising Teacher : Dr. MOHAMED SALEEM.
Year of the Study : 2008

OBJECTIVES

To find out the extent of instructional facilities and infrastructural facilities under IT @ School project of Kozhikode Revenue District

METHODOLOGY

Method Used : Survey Method
Sample : 252 Teachers and 850 High School Students
Tools : 1. Questionnaire on IT Instructional facilities for Teachers of High School
2. Questionnaire on IT Instructional Facilities for Students of high School
3. Check list on IT Infrastructural facilities

Statistical Techniques: Percentage Analysis

RESULT

64 % of the total sample is following planned instruction and 36 % are weak in planning. The instructional facilities of IT @ School project with regard to planning and school atmosphere are slightly better; where as other aspects such as execution, evaluation, curriculum transactions and resource mobilization are not in a satisfactory level.

KEY WORDS: Instructional Facilities, Infrastructural Facilities, ITS @ School Project
