

ANALYTIC INDUCTION OF PRECIPITATORS AND PROPITIATORS OF SOCIAL ANXIETY
AMONG PROSPECTIVE TEACHERS.

Name of student : SREEVIDYA S
Name of supervising teacher : Dr NOUSHAD P P
Year of study : 2010

OBJECTIVES

- To analyse inductively and construct categories on the precipitators of social anxiety of prospective teachers for the total sample.
- To analyse inductively and construct categories on the precipitators of social anxiety of prospective teachers for sub-samples based on gender, Locale and Subject of specialization.

METHODOLOGY

Method used : Analytic Induction using constant comparison approach

Sample : 700 prospective teachers from Wayanad, Kozhikode, Malappuram, Thrissur, Ernakulam, Kollam and Thiruvananthapuram

Tool : Open-ended questionnaire for assessing the precipitators and propitiators of social anxiety of prospective teachers(Noushad &Sreevidya 2010)

Statistical techniques : Qualitative data analysis

RESULT

Good number of students and even prospective teachers are in the grip of social anxiety. The advent of certain factors at the rescue of prospective teachers of the sample and helped them to reduce and make anxieties effectless.Human beings are the victim of the social anxiety in their day to day life.
