PROBLEMS OF TTC STUDENTS

Name of student : LASITHA. M. K
Name of the supervising teacher : UMER FAROOK.T.K
Year of the study : 2011

OBJECTIVE

To find out the extent of problems of TTC Students

METHODOLOGY

Method : Survey method
Sample : 600 TTC student teachers.
Tool : Scale of problems of TTC students
Statistical techniques : Mean Percentage analysis, Test of significance of difference between type of management.

RESULT

Most of the TTC students have faced problems in various components in different extent. When comparing Urban students with Rural students, Urban students are faced more problems than Rural students. Then there are no significant differences in the problems faced by them based on the subsample type of institution.

KEY TERMS: TTC Students
