

GREEN CAMPUS PROGRAMME IN THE COLLEGES OF CALICUT AND
MALAPPURAM DISTRICTS: AN ANALYSIS

Name of the student : MARSHINA M K
Name of the supervising teacher : Dr. M. JESSA
Year of Study : 2012

OBJECTIVE

- To analyse green campus program in various colleges of Calicut and Malappuram district
- To test the significance of mean difference of green campus program based on the type of management of the colleges

METHODOLOGY

Method : Survey Method
Sample : 60 College teachers from Calicut and Malappuram district
Tool : Questionnaire on green campus program
Statistical Technique : Preliminary analysis, Test of significance of difference between mean squares

RESULT

The study reveals that the selected colleges of Calicut and Malappuram district have internalized the message of cleaning the earth as the preliminary step towards sustainable development. The result of the study indicates that the two streams government, government-aided and self-financing colleges differ significantly with respect to their philosophical approach towards greening, adoption of green strategy and green planning
