GENDER QUEST IN LOGICAL MATHEMATICAL INTELLIGENCE AMONG  
SECONDARY SCHOOL STUDENTS OF KERALA

Name of Student : DIVYA THARAYIL

Name of Supervising Teacher : Dr. M. JESA

Year of Study : 2014

**OBJECTIVES:**

To find out whether there exist significant gender difference in Logical – Mathematical Intelligence among Secondary School Students of Kerala.

**METHODOLOGY**

**Method used** : Survey method

**Sample** : 400 Secondary School Students of Malappuram Districts

**Tool** : Logical – Mathematical Intelligence Test.

**Statistical Techniques** : Preliminary statistics, Two-tailed test of significance of difference between means of large independent samples.

**RESULT**

The study showed that there exist gender difference in Logical Mathematical Intelligence among Secondary School Students.

**KEY TERMS:** Logical – Mathematical Intelligence, Gender, Secondary School Students
