

STUDENTS' PERCEPTION ON TEACHER EFFICACY OF VISUALLY CHALLENGED  
TEACHERS

Name of the Student : RABIYA K. T.  
Name of Supervising Teacher : Dr. T. MOHAMED SALEEM  
Year of the Study : 2014

**OBJECTIVE**

To find out the extent of teacher efficacy of visually challenged teachers perceived by their students.

**METHODOLOGY**

**Method Used** : Survey Method.  
**Sample** : 750 students of visually challenged teachers.  
**Tools** : Teacher Efficacy Scale for students of visually challenged teachers (Salim & Rabiya, 2014), Interview schedule for teachers.  
**Statistical Techniques** : Percentage Analysis, t- test

**RESULT**

Out of 750 students only 132 students having a high level perceived teacher efficacy, which reveals that only 17.6% teachers are having high level of teacher efficacy. 68.3 % of teachers i.e. majority, coming under moderate level in their teacher efficacy.

**KEY WORDS:** Teacher Efficacy, Visually Challenged
