

**RELATIONSHIP BETWEEN LOCUS OF CONTROL AND  
ACHIEVEMENT IN MATHEMATICS AMONG SECONDARY SCHOOL  
STUDENTS**

Name of the Student : NIMISHA P  
Name of the Supervising Teacher : Dr. P. REKHA  
Year of Study : 2020

**OBJECTIVES**

- To find out the relationship between locus of control and achievement in mathematics among secondary school students.

**METHODOLOGY**

**Method** : Survey method  
**Sample** : 648 secondary school students studying in standard IX  
**Tool** : Locus of control Inventory

**Statistical techniques:** Percentage, Test of Significance of difference between Means, One Way ANOVA, Pearson's Coefficient of Correlation, Chi-square

**RESULT**

There is a negative, very low but significant relationship between locus of control (external) and achievement in mathematics.

**KEY TERMS:** Relationship, Locus of control, Achievement in mathematics
