

**OPINION OF HIGHER SECONDARY SCHOOL STUDENTS ON ADDITIONAL SKILL
ACQUISITION PROGRAMME**

Name of the student: Nasari T.
Name of the supervising teacher: Dr. Mumthas N.S
Year of the study: 2015

OBJECTIVE

- To find out the opinion of Higher Secondary School Students on Additional Skill Acquisition Programme (ASAP).
- To compare the mean percent of agreement with ASAP among higher secondary school students on relevant subsamples.

METHODOLOGY

Method used: Survey method
Sample: 500 Higher Secondary School Students
Tool: Opinionnaire on Additional Skill Acquisition Programme.
Statistical technique used: Percentage analysis, Test of significance of difference between percentages

RESULT

ASAP training programme in our schools have helped to empower all students from all sections of society. The opinion of students show that majority of students agreed with all dimensions of ASAP. The findings also show that there is no significance difference in the percent of agreement with ASAP among higher secondary school students in relevant sub sample based on gender, subject specialisation, locale of institution and type of management of institution.

KEY TERMS: ASAP training programme
